CEN 4722 User Experience Design
User Interview Template

Submitted by: [Hannah Hardy]

Focus Statement (include research context and target users)	Our research aims to understand the experiences and perspectives of graduating students in the computer science and data science fields as they transition into the workforce.
Discussion Guide	
- **Introduction**	Hi, my name is Hannah. Thank you for meeting with me today. This interview should only take about 15 minutes. There are no right or wrong answers. It is important to us that we get your honest feedback on our questions. This session will be recorded but will only be submitted for course purposes. Please sign this acknowledgment form if you are okay with this.
- **Key demographic questions**	Are you senior/about to graduate? [User response] Do you have a job lined up/when did you receive it? [User response] Are you a computer science/data science student? [User response]
- **Warm-up questions (factual answers)**	Have you had previous experience/internships? [User response] Are you a part of any clubs/orgs on campus? [User response] Do you feel prepared to join the workforce? [User response]
- **Main questions (open-ended discussions)**	How is/was navigating the job market? How did it make you feel? [User response] Did you use any of your own personal connections to help you gain a job/internship? (This could be clubs/orgs/friends/family/peers/colleagues) [User response] What companies were you excited to apply to and why? [User response]

Design Probe(s)	Tell me more about your post-grad education?
	[User response]
	How do you feel about it?
	[User response]
	Did the university provide enough resources to feel prepared to go into the workforce?
	[User response]
